Participants needed for research study

Assessment of Decision Making

The purpose of this study is to examine how people may differ in their style of decision-making. Results from this study will be used by the Educational Testing Service in designing a standardized assessment of decision-making.

Participants will:

- Perform a series of decision-making tasks that require the review of information and the making of decisions based on that information.
- Complete questionnaires related to: Demographics, Computer and Video Game Experience, Personality, & Mood and Attitude Before and After Tasks.

Participants must meet the following inclusion criteria to participate:

- At least 18 years old
- Fluent in English
- Physically able to use a mouse and keyboard
- Normal or corrected to normal vision
- Not colorblind
- No Sedative or Tranquilizers within 24 hours of the study
- No Anti-Psychotics or Anti-Depressants within 24 hours of the study
- Must NOT have a history of epilepsy or seizures

Compensation for this study is $10 per hour. The expected duration of this study is 1.5 hours. The study duration will not exceed this allotted time.

To participate, choose one of the following sign-up methods:

- Online at the IST SONA System: http://ucf-ist.sona-systems.com
- Email the study coordinator, Ryan Wohleber, at rwohlebe@ist.ucf.edu
